

# KICKSTART SETUP

-BY,

SAUMIL SHAH

**STEP-1: SETUP A FTP SERVER**

**STEP-2 LOAD THE KICKSTART.CFG FILE IN /VAR/FTP/PUB**

**STEP:3 ALSO UPLOAD THE ISO FILE TO THE FTP SERVER**

**STEP:4 EDIT THE KICKSTART.CFG FILE**

**EDIT THE THE FOLLOWING THINGS**

**1)PATH OF OS**

**2) IP ADD OF OTHER MACHINE, ON WHICH YOU WANT TO INSTALL THE KICKSTART SERVER IN 'FTP SHARE'**

**STEP-5 PING THE SERVER AND CLIENT AND CHECK IF THE IP PING PROPERLY AND GO TO THE BROWSER OF CLIENT AND CHECK THE SERVER FTP IS ACCESSIBLE OR NOT. [FTP://IPADDOFSERVER]**

**STEP-6: NOW SHUTDOWN THE CLIENT AND WHILE BOOTING GO TO BOOT OPTIONS BY PRESSING F12 SELECT BOOT FROM CD-ROM**

**STEP:7 AFTER GOING THERE PRESS TAB SO THE CURSOR WILL BE ACTIVE AT THE BOTTOM**

**STEP:8 NOW ADD THE FOLLOWING THINGS HERE**

**INST.KS=FTP://IPADDOFSERVER/PUB/KICKSTART.CFG**

**AND HIT ENTER**

**THE BOOTING WILL THEN START**

**ATTACHING THE SAME KICKSTART.CFG FILE SO YOU CAN EDIT AND HAVE A LOOK AND USE THE SAME OF YOUR SERVER**
